1. Select the workshop batch you want to join from open slots below

6-10 Jan '25

2. What are your thoughts on how this residency could be of help to you or your organisations work?

As a Senior Research Associate working on the WASH Project with ASCI, supported by IndusInd Bank, this residency will help enhance my skills in implementing innovative, climate-resilient solutions. Our work involves improving water, sanitation, and hygiene infrastructure in rural and urban settings, directly contributing to SDG 6. Participating in the residency will enable me to explore experimental tools and strategies to address challenges like water resource management and the integration of climate action into WASH initiatives. This will ultimately benefit our organization's projects and help scale impactful practices in the Bahraich district and beyond.

3. Organisation Details, if you are applying as NGO participant

Established in 1956 at the initiative of the government and the corporate sector, the Administrative Staff College of India (ASCI), Hyderabad, has pioneered post-experience management education in India. ASCI equips corporate managers, administrators, entrepreneurs and academicians with the skills to synthesize managerial theory and practice; and respond to the ever-increasing complexity of managerial issues confronting government, industrial enterprises and non-government organizations.

4. If you are a student or staff representing a grassroots NGO with limited budget, do you need a travel allowance to cover your travel costs?

NO

5. A working laptop will be required for the workshop and future online support.

Yes, I have a laptop

6. What is one thing that your friends & colleagues find valuable about you?

My colleagues value my ability to collaborate effectively, build relationships with diverse stakeholders, and find practical solutions to complex challenges in community development. My leadership in coordinating field activities and ensuring timely delivery of results is often appreciated.

Revision #1
