key Stakeholders

If you are working to solve the problem through data, let's begin by identifying who the key stakeholders are.

- The Stakeholders

The Stakeholders

If you are working to solve the problem through data, let's begin by identifying who the key stakeholders are.

Let's get started with an activity! Imagine you are part of an NGO that works with vulnerable communities and collects data in the field. As we go through this example, we will figure out who the stakeholders are.
