

# The Stakeholders

If you are working to solve the problem through data, let's begin by identifying who the key stakeholders are.

Let's get started with an activity! Imagine you are part of an NGO that works with vulnerable communities and collects data in the field. As we go through this example, we will figure out who the stakeholders are.

## Who are the key Stakeholders?

12 responses

NGOs

Program Staff

Field worker

Vulnerable community

Researchers

Technical Partners

Data export

NGOs Staff

Volunteers

Donors

Funders

Community members
