2. What are your thoughts on how this residency could be of help to you or your organisations work?

This residency could be invaluable in helping us make our institutional knowledge more accessible. Parisar works in various issues; road safety, air quality, sustainable mobility and single use plastics. Improving our storytelling capacity to enhance visibility of our work would allow us to reach more volunteers, and donors, amplifying the impact of our initiatives. Additionally, building capacity to develop effective digital outreach strategies would enable us to connect with a wider audience.
