1. Select the workshop batch you want to join from open slots below

5-6 Dec '24

2. What are your thoughts on how this residency could be of help to you or your organisations work?

I'm a UX Designer, this program can indeed help me broaden my perspective beyond the cubicle that I'm used to. My definition of being a successful UX designer starts with creating solutions that are user friendly, however being from a tech background I think more from a user with the same background as mine. From this residency program, I have the ticket to explore more with people from different domains and it's a great challenge to be part of it.

3. Organisation Details, if you are applying as NGO participant

NIL

4. If you are a student or staff representing a grassroots NGO with limited budget, do you need a travel allowance to cover your travel costs?

No

5. A working laptop will be required for the workshop and future online support.

Yes, I have a laptop

6. What is one thing that your friends & colleagues find valuable about you?

I've been told that I'm passionate about what I do. Since day 1, I used to keep telling myself that I need to do something I'm driven by and it's a good feeling when people around you agree to it.

7. Any other comments/questions?

Any prerequisites for the residency program? I love writing stories, here are some:
